

Neil's Boat Trip

Neil Macrae's boat trips are famous worldwide. Over the years he has appeared on a number of TV shows, radio broadcasts and articles. Not bad for a man who's living comes not from tourism, but as a scallop fisherman.

A local lad, born and bred, Neil's easy charm is infectious and like any fisherman he's never short of a fishy tale or two. However, he's a good man to keep on the right side of. To see the majestic views from the centre of Loch Carron while tasting scallops, cooked on the boat just seconds out of the water, is an experience not to be missed.

The abundant sea-life also attracts a wealth of seals, sea birds and the occasional dolphins and porpoises all of which can be viewed in close quarters from the familiar fishing boat.

Neil's boat trip is available on the 4 day Skye, Seafood and Whisky and the 8 day Skye, Harris & Lewis.
